Sibylle Schroll

WELCOME TO THE INAUGURAL EDITION OF ANNALS OF REPRESENTATION THEORY - ART

This new fully digital journal is dedicated to publishing top quality original research articles in the general area of contemporary representation theory, including its algebraic, geometric and combinatorial aspects. ART aims to become the leading journal for the field of representation theory.

As a Diamond Open Access journal, ART offers immediate and unrestricted access to its content. In particular, it is freely available with no need for subscription and with no charges for authors.

We are very grateful for all the support and encouragement we have received in the process of establishing the journal. Special recognition is owed to all the mathematicians who have accepted to be editors of the journal and the authors who have contributed outstanding papers to its first volume.

ART was established in 2022 and is owned and operated by NTNU - Norwegian University of Technology and Science. We thank Nina Andersen, Sigurd Eriksson, Ståle Kalkvik, Sølvi Karlsen and Lene Johansen Løkkhaug, all at NTNU – University library, for their assistance.

Our web-publishing partner, Centre Mersenne, merits our kind appreciation, with special thanks going to Vincent Beffara, Olivier Labbe, Alexandre Moeschler, and Celia Vaudaine for their support.

A very special thanks goes to the production editor, Sondre Kvamme, who has played a major role in the planning and start-up phases of ART.

The realization of this journal was made possible through a generous donation from Prof. Emerita Idun Reiten of NTNU. The first volume of *Annals of Representation Theory* is dedicated to her in acknowledgment of her invaluable contributions to representation theory and mathematics in general.

EDITORIAL BOARD

Editors-in-Chief:

- Javad Asadollahi (University of Isfahan)
- Aslak Bakke Buan (Norwegian University of Science and Technology)
- Walter Mazorchuk (Uppsala University)
- Sibylle Schroll (University of Cologne/Norwegian University of Science and Technology)

Production Editor:

- Sondre Kvamme (Norwegian University of Science and Technology)

Editors:

- Lidia Angeleri Hügel (University of Verona)
- Kevin Coulembier (University of Sydney)
- Ben Elias (University of Oregon)
- Osamu Iyama (University of Tokyo)
- Bernhard Keller (University of Paris)
- Radha Kessar (University of Manchester)
- Henning Krause (University of Bielefeld)
- Peter Littelmann (University of Cologne)
- Wendy Lowen (University of Antwerpen)
- Anne Schilling (University of California, Davis)
- Andrea Solotar (University of Buenos Aires)
- Hugh Thomas (Université du Québec à Montréal)
- Jerzy Weyman (Jagiellonian University)
